

Michelle,

Thanks again for the fabulous centerpieces you designed for my sales meeting events!

Both events were tremendous successes and people are *still* talking about the uniqueness of the floral sculptures.

You're the best!

Dear Michelle,

*You did such an outstanding job decorating our home for the holidays! I especially loved the living room mantle. It looked so Victorian! The grand staircase was breathtaking, and your floral arrangements for the tables were just beautiful. The dining room centerpiece was my favorite with the fresh apples, lilies and roses. I really enjoyed meeting your grandmother, and now I know who you got your talent from. She was a joy and a delight to work with, as were you.*

*Thank you for doing what I could never do and for doing it so beautifully! Your special touch made my holiday dreams come true!*

Sincerely,

Dear Ms. Trefethen,

I hope you had a great time at our school. I loved the flowers you brought in. They were beautiful and magnificent. I never know how much florists get to travel to set up peoples weddings. I also loved the pictures of the different flowers. I have never seen such marvelous flowers in my entire life time. Your bouquets were to die for. Well, have a great life and a great day.

Sincerely,  
Michaela Anderson
